

**Leigh Ann (Simpson) Ingwersen, CMP,
Joins American College of Medical Genetics and Genomics
as Exhibits and Sponsorship Manager**

BETHESDA, MD – February 26, 2026 | The American College of Medical Genetics and Genomics (ACMG) is pleased to announce that Leigh Ann (Simpson) Ingwersen, CMP, has joined the organization as Exhibits and Sponsorship Manager.

Ingwersen brings more than 30 years of leadership in the meetings and exhibitions industry, with extensive experience supporting national associations and delivering high-impact event programs. Her background includes roles with the Society of Biblical Literature (SBL) and the American Society for Reproductive Medicine (ASRM), where she led exhibit and sponsorship initiatives that strengthened industry partnerships and enhanced the attendee experience.

A Certified Meeting Professional (CMP), Ingwersen earned her Bachelor of Arts in Communications from Auburn University. She also serves on the International Association of Exhibitions and Events Southeastern Chapter Board, reflecting her ongoing commitment to advancing excellence in the exhibitions and events field.

“The ACMG Annual Clinical Genetics Meeting continues to see strong growth in its exhibits and sponsorship program,” said Jane Dahlroth, CEM, CMP, Senior Director of Meetings and Exhibits. “Leigh Ann’s depth of experience and strategic approach to sales, marketing, and customer engagement will be instrumental as we further expand and elevate this important component of our Annual Meeting.”

**About the American College of Medical Genetics and Genomics (ACMG) and
ACMG Foundation**

Founded in 1991, the American College of Medical Genetics and Genomics (ACMG) is a prominent authority in the field of medical genetics and genomics and the only nationally recognized medical professional organization solely dedicated to improving health through the practice of medical genetics and genomics. The only medical specialty society in the US that represents the full spectrum of medical genetics disciplines in a single organization, the ACMG provides education, resources and a voice for more than 2,500 clinical and laboratory practice of medical genetics as well as through advocacy, education and clinical research, and to guide the safe and effective integration of genetics and genomics into all of medicine and healthcare, resulting in improved personal and public health.
